

## Online learning platforms in Ukraine

Note: UNICEF is sharing these platforms for information to support the continuity of education for children. With the exception of UNICEF-supported platforms and applications, UNICEF does not own or operate the sites below and is not accountable for the content therein. It is important that a child's caregiver, teacher, or a responsible adult review the suitability of the site and materials children are accessing on a regular basis.

While digital solutions offer many opportunities for children's learning, they can also present risks. The following resources can help children's caregivers, teachers, and the adults who support them to keep children safe online.
